Metairie, La, 70006

Dear Dr. Rathnam,

I very much appreciate the prompt and professional service I received as a client of Genox. The pricing of the assays was fair(substantially less than some of your competitors) and the oxidative stress marker results reported by Genox were consistent with standardized samples and expected outcomes, a strong indicator of reliability. It is my intention to use Genox for future clinical trials.

Sincerely,

James B. Johnson, M.D.

Clinical Instructor, Surgery(Plastic)
